

20 of 27 A Level subjects achieved a pass rate of 100% and all of them a rate higher than 90%

A Level Results 2014

Trinity's 'AS' and 'A' Level students achieved outstanding results again this year. Although our 'A' Level pass rate is always high, this year's 98.9% pass rate ranks amongst our highest ever - a truly fantastic achievement by your sons and daughters! Our main headlines are as follows:

- A* - E pass rate: 98.9%.
- A* - B pass rate: 51.5%
- 20 of our 27 'A' Level subjects achieved a pass rate of 100%.
- Your sons' and daughters' 'AS' and 'A' Level achievements were once again above UK averages in almost every assessable category.

2014 was a very difficult year to secure a place at university – and particularly at very competitive ones such as those in the 'Russell Group'.

However, we are happy to report that 99% of Trinity students have been successful in their higher education applications and are looking forward to taking up their places in the next few weeks. Trinity leavers will be studying a wide range of subjects – from Accounting through Medicine to Sport Science - and at universities the length and breadth of the UK (including almost every one of the Russell Group of universities and including three at the University of Oxford). Congratulations and good luck to them all!

The AS Level pass rate was 91.5%. 17 AS Level subjects achieved pass rates of 90% or higher.

99% of higher education applicants secured places
