### **RE: STUDENT DINNER MONEY ACCOUNTS**

22<sup>nd</sup> March 2018

Dear Parents/Guardians,

Please can I ask all parents/guardians to double check their children's dinner accounts and to clear overdrawn balances by 31<sup>st</sup> March 2018.

Families receiving a Free School Meal Allowance per day, please note that this allowance is £2.10 per day; this is the value of a meal deal. Students spending more than this allowance need additional funds put onto their accounts.

The meal deals available offer exceptional value for money; for £2.10 students can purchase various options.

There is always tap water and a large variety of other items on offer but these will be charged at different individual prices.

Students have a £7.00 daily limit on the system unless parents have requested otherwise. It is the students' responsibility to keep within their daily allowance. The caterers will do their best to support students who are exceeding their limits but please be aware that once food is handled it must be paid for.

If students take items and have no funds on their accounts the caterers will record this and they will be charged to student accounts as 'money owed' once balances are available again.

Your cooperation in this matter is appreciated, please look at your account and ensure it has a positive balance.

Yours sincerely,

*C Burdfield*  
Director of Finance
